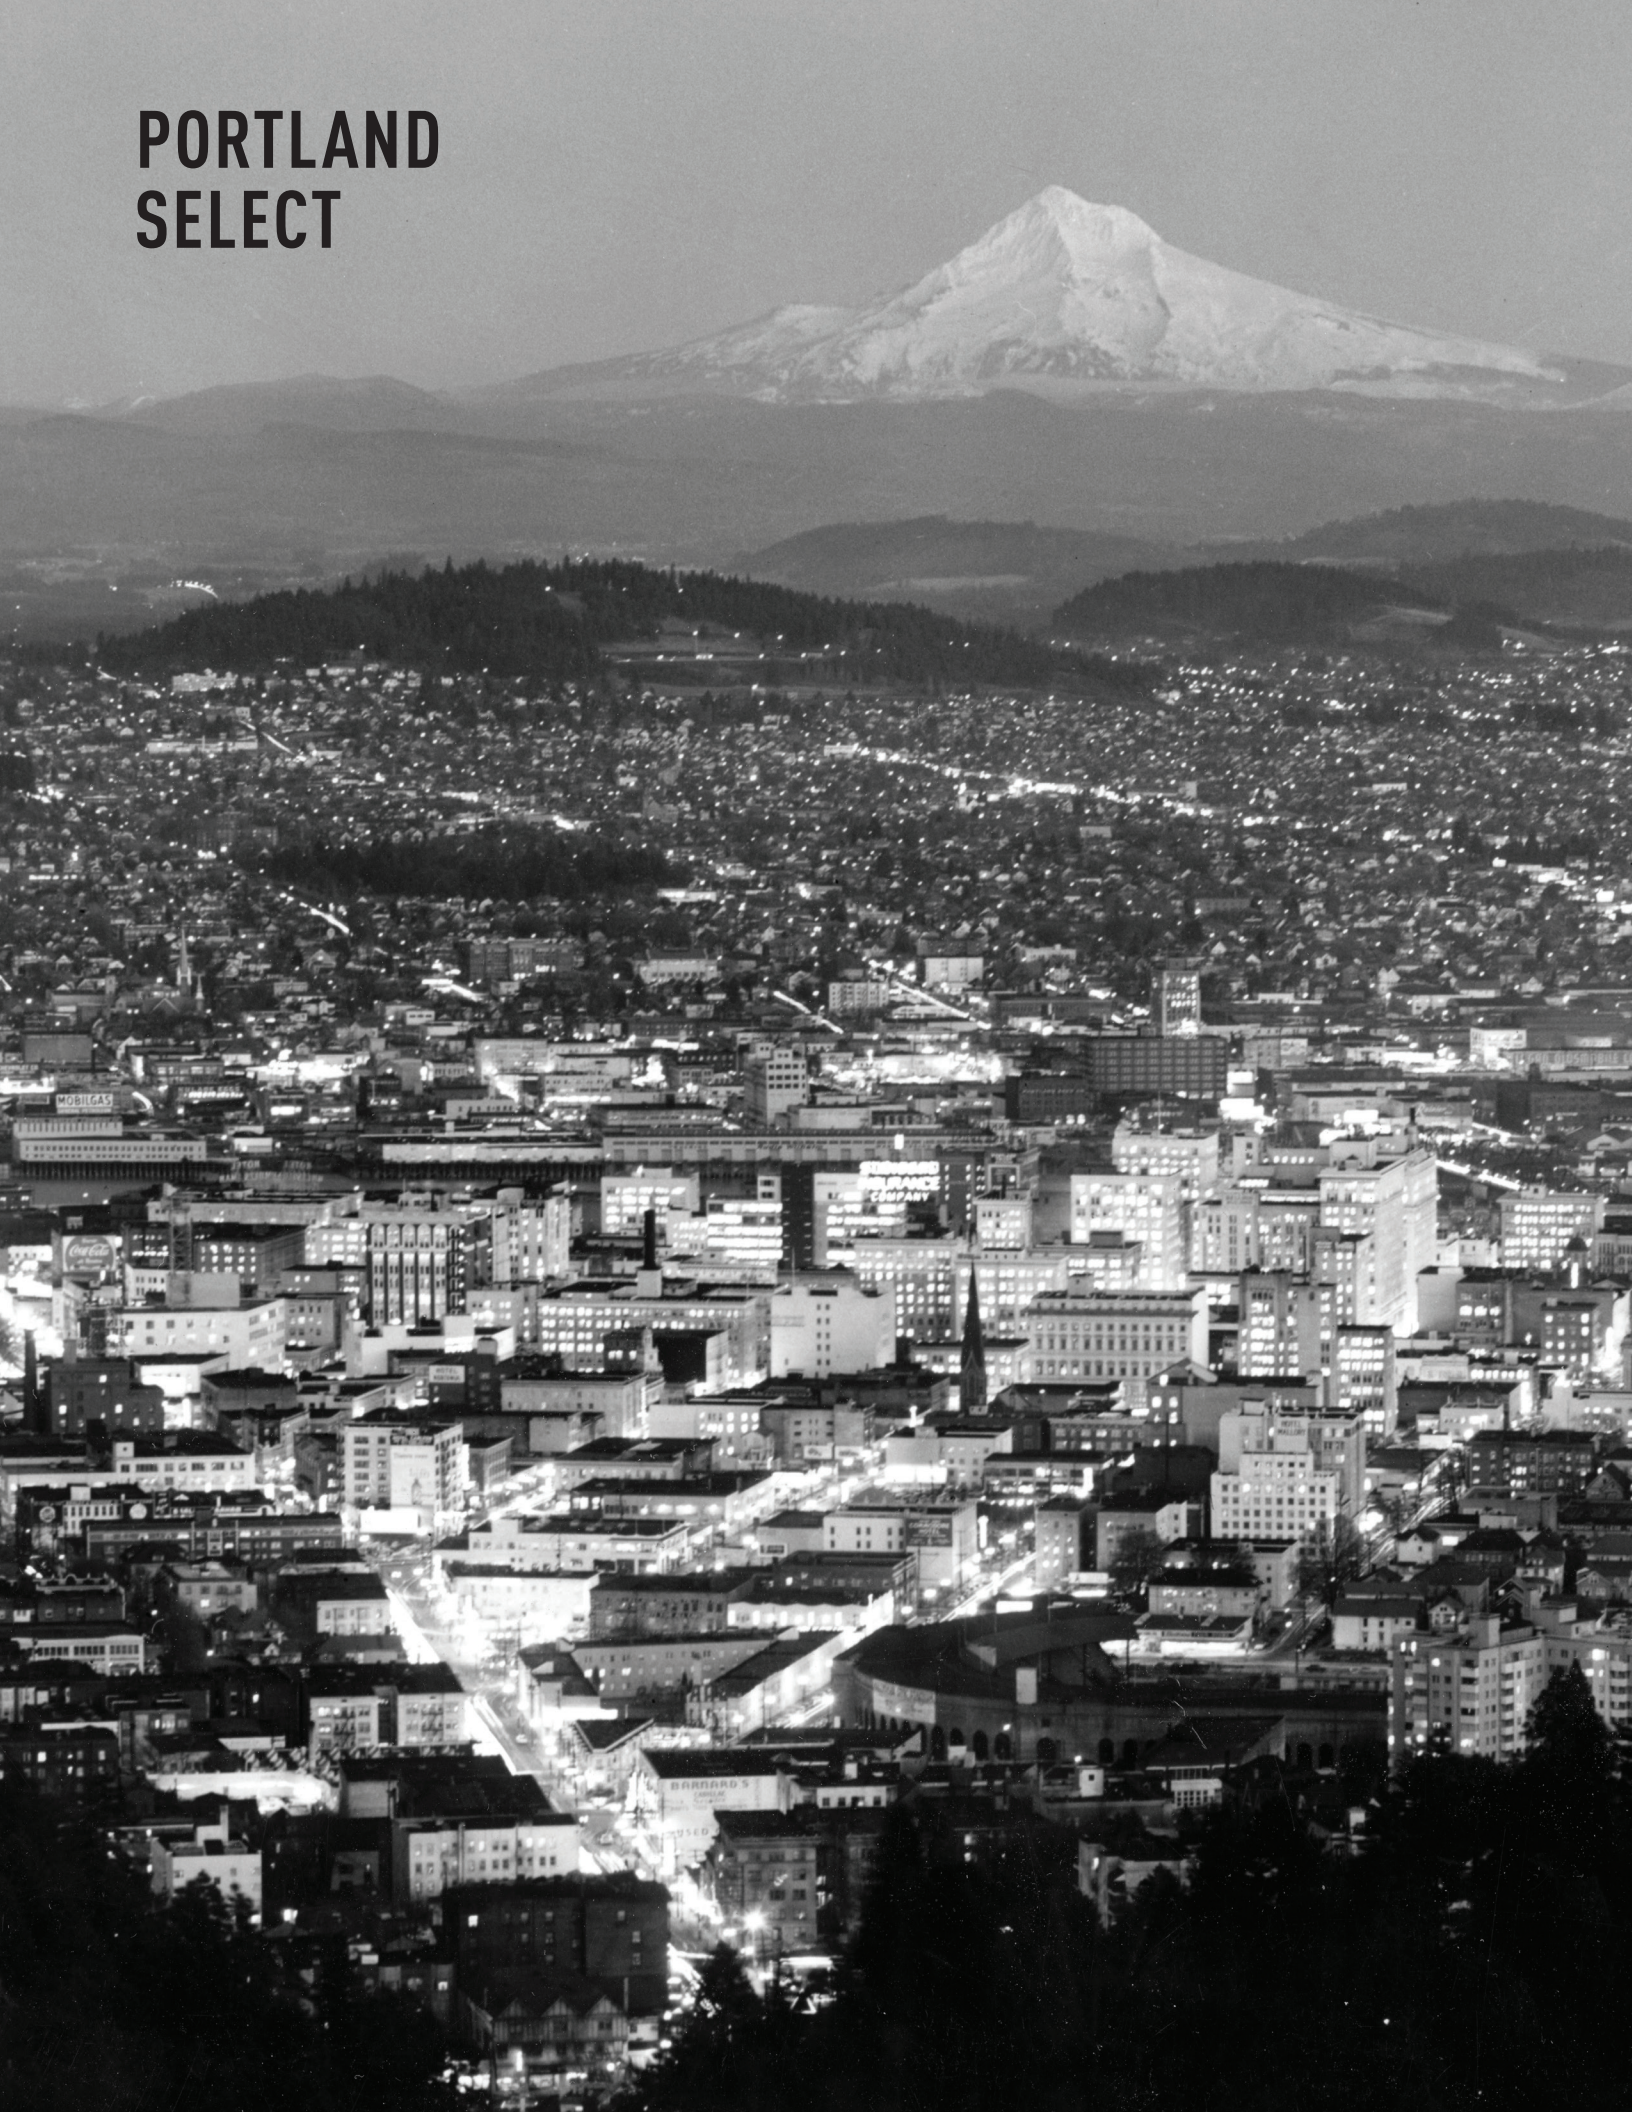
PORTLAND SELECT



"WE'LL CONTINUE MAKING FINE BOOTS UNTIL THEY PASS A LAW REQUIRING BUILT-IN OBSOLESCENCE. UNTIL THEN, WE ARE GOING TO GIVE YOU BOOTS THAT YOU CAN BE PROUD TO WEAR, BOOTS THAT CAN CLAIM THE BEST QUALITY AVAILABLE ANYWHERE."

Inspired by the rugged loggers and demanding conditions of the Pacific Northwest, Bill Danner set out to build the highest-quality boots for the outdoors. For the past 90 years, this pioneering spirit has produced iconic Danner styles, including the Mountain Light and Danner Light. Today, our Portland Select collection honors this legacy of quality: boots made in our USA factory with unmatched craftsmanship and premium materials that perform in any environment.

Danner.com/PortlandSelect

CRAFTED AND RECRAFTED IN THE USA

Every pair of Portland Select boots is built with care in our Portland, Oregon, factory, drawing from the knowledge and skill accumulated over nine decades of boot making with the finest quality components. Our commitment to handcraft each boot in the USA means we are able to mind every detail, down to the last stitch.

We believe that well-cared-for boots should last for years — and we back that belief with our Recrafting services. Our skilled craftspeople can often give new life to a pair of boots after years of wear, replacing outsoles, reconditioning leather and restitching seams. From replacing simple parts to completing major overhauls, we can often help get your boots back on the trail, workshop or wherever your next adventure takes you.

30-PLUS YEARS OF HIKING BOOT GREATNESS

Ask a seasoned backpacker what the ideal hiking boot looks like and you're bound to hear a description of the Mountain Light. That's because for more than 30 years, the Mountain Light set the standard for every new product that hit the market. And in all that time, nothing ever dethroned the original. Today, we're proud to reintroduce this classic boot. Every single pair is built by hand in Portland, with full-grain leather or premium suede, Vibram® Kletterlift outsoles and optional waterproof GORE-TEX liners. The result is a classic design that provides unmatched comfort and support.

MODERN UPGRADES TO OUR CLASSIC DANNER LIGHT

The Danner Ridge was created to be a lighter weight and more versatile hiking boot that still reflects our classic Danner styling. Built with light hikes and city streets in mind, this boot is inspired by our original Danner Light with an updated construction method that integrates the shank, midsole and lasting board into a single piece. This new, unified platform, combined with a Vibram® outsole, allowed us to significantly reduce weight and create an out-of-the-box comfort that doesn't come standard with most classic hiking boots.

A TRUE DANNER BOOT

If you're in the market for a Danner classic, look no further. The recraftable Vertigo boot is made in the USA by craftspeople in our home base in Portland, Oregon. The premium full-grain leather upper gives the Vertigo a clean yet rugged look, and the cushioned footbed and low-profile tongue minimize the break-in period. For those outdoor adventures, the boot is built with a grippy Vibram® Kletterlift outsole that provides maximum traction.

30-PLUS YEARS OF HIKING BOOT GREATNESS

The USA-made Mountain Light hiking boot is legendary for its unmatched quality, durability and support. GORE-TEX lining provides waterproof protection. The Vibram® Kletterlift outsole offers lightweight comfort, as well as superb shock absorption, and guarantees great traction and stability on both wet and dry surfaces. Danner's famous stitchdown construction provides a wider platform for stability and the lace-to-toe system provides a secure fit. The women's Mountain Light Cascade was featured in the Fox Searchlight Pictures release *WILD* in 2014.

SETTING THE STANDARD WITH GORE-TEX LINERS SINCE 1979

As far as this boot is concerned, it's still the golden era of backpacking. To build it, Danner bootmakers sought out leathers similar to those used on the original Danner Light. This classic-inspired boot features stitchdown construction and a Vibram® Kletterlift outsole. The Danner Light is still built by hand in our Portland factory with rich full-grain leather, denier nylon panels and waterproof GORE-TEX liners.

MADE IN USA

Made in USA, Danner Portland Select boots are built by hand in our factory in Portland, Oregon Drawing from the knowledge and skills accumulated over nine decades of boot making, our trained craftspeople construct each pair of boots with precision and extreme attention to detail. With a focus on quality, performance and durability, Danner boots are made to last.

STITCHDOWN CONSTRUCTION

Handcrafted to provide a wider platform, our legendary stitchdown construction offers increased stability underfoot. Many of our stitchdown boots can be recrafted.

GORE-TEX

Oregon's lush but rough terrain was the perfect backdrop to inspire a high-performance boot, designed to keep feet dry and comfortable in the most extreme of environments. An innovator since its inception, in 1979, Danner became the first company to use GORE-TEX to build a 100% waterproof, breathable boot.

VIBRAM®

For more than 50 years, Danner has featured premium Vibram® outsoles on our boots to provide the best traction available for hiking and everyday use. Tried and true designs such as the Kletterlift outsole are featured throughout the line. New technologies such as Vibram® Megagrip and Arctic Grip are now available in some Portland Select styles, providing extra grip in wet and icy conditions.

FIT

Portland Select styles offer a roomier fit for relaxed comfort while still offering rugged support and stability. Our EE sizing is not as wide as others, so it offers the most universal fit for casual, everyday wear. We recommend sizing down a half size for the best fit.

RECRAFTING

You can go a long way in a pair of Danner boots. And since many of our boots can be recrafted by replacing the outsole, reworking the leather and restitching the seams, you can go even farther. Our craftspeople can provide everything from simple part replacement and leather care to major overhauls. For information on Danner's recrafting services, please visit danner.com/recrafting

MANAGE YOUR BUSINESS WITH US ANYTIME, ANYWHERE

Visit our B2B site, dealerservices.danner.com, for 24/7 dealer access to place orders, check inventory and track or review existing orders. It's fast, simple to use and mobile friendly — access wherever and whenever is most convenient for you.

Registration is easy. All you need is your account number to register. Shop our seasonal catalogs, place orders and check inventory. Check order history, status and more.
